Come celebrate the season and experience everything new at the West Point Golf Course!

General Information

The West Point Golf Course is finally open!

Spring has finally arrived at West Point Golf Course! With warmer days and clear skies, the historic Hudson Valley destination is now officially open for the 2025 season, welcoming golfers back to the fairways in style.

This season brings more than just great golf – the brand new West Point Golf Course Clubhouse is now open for events. Featuring a modern, elegant design and panoramic views, the clubhouse is perfect for weddings, banquets, corporate events, and post-round celebrations.

The staff is hard at work focused on detail elements of recovery and re-establishment from 4 years of construction through the property. The cart paths are of particular concern and a focal point of our energy over these next few weeks. The staff will be applying asphalt patch material and soil/seed work along the edges followed by re-establishment of high traffic areas. We will be also focused on spring feed applications and cultural practices of our primary playing surfaces with the goal of showcasing our product by graduation in May.

Coming soon: private lessons, group instruction, and clinics led by PGA Professional Jessie Walker. With nearly 40 years of teaching experience and a deep background in golf instruction, Jessie offers expert guidance for players of all levels to improve their game.
