Hands Free Dog Walking Belt & Tether

ULTIMATE MOBILITY

Our unique design with a sliding D-ring offers your dog full 360 range of motion and allows your pet to roam freely from your left-hand side to your right-hand side and vice versa without you needing to reposition the belt or unclasp the leash.

HANDS-FREE CONVENIENCE

You can engage in physical activity with your dog by your side while keeping your hands free. The belt is worn around your waist, freeing up your hands to check your cell phone or to carry a tote or water bottle.

COMFORTABLE DESIGN

Your dog can move around you as the D-ring to which the tether is attached simply moves along. The tether itself is a bungee, further enhancing comfort as it absorbs shocks and reduces tugging, further enhancing comfort as it absorbs shocks and reduces tugging.

FLEXIBILITY

The waist belt comes with 1 sliding D-ring allowing your dog to move around your waist. When tighter control is needed, the bungee leash can be attached to a fixed D-ring next to the waist buckle. The leash also features control handles on both ends for easy grip when you need to keep your dog near to you.

FOCUS ON SAFETY

Both the waist belt and bungee tether are manufactured from sturdy nylon fabric and feature reflective stitching. The waist belt is closed with a safety buckle preventing inadvertent unbuckling.

ONE SIZE FITS ALL

The waist belt is adjustable from 27 to 40 inches around the waist so the same belt can easily be shared among family members.
