# Youth Sponsorship Training

## Parent/Guardian Informed Consent Form

There are two possible ways that your child may be asked to provide their feedback about their training experience in the program:

1. Participate in group discussions: The team of youth sponsor advisors will ask youth to participate in short group discussions about their experiences in the training and relate it to what they may encounter sponsoring new youth.
2. Complete a participant feedback form: After the training and any program activity, youth will have the opportunity to fill out a participant feedback form.

**Confidentiality:** The program staff who facilitate the group discussions and collect the feedback forms will keep your child's private information (name, answers on the feedback form, comments during the group training & discussions) confidential and kept in a locked file. Discussion comments and feedback will only be used in aggregate to improve program practices and inform others about program success.

**Benefits:** The training will better prepare them in their relations and how to help new youth to West Point. The information gathered from your child will have a positive impact on the development of Youth Sponsorship Programs across military installations. Feedback from participants will be used to improve program practices/activities and help ease transitions for all youth.

**Risks:** There may be minimal risks for your child if there is a breach in confidentiality. Every effort will be made to ensure that your child's comments are confidential and not shared with any individual.

If you have any questions about your child's participation in the training seminar and program or the methods by which program staff will be gathering feedback, please contact the School Liaison Officer, Michi Carl, at 845-938-2092, or you can contact the front desk at the Middle School Teen Center, 845-938-3727. Thank you parents.
